

Where are Almost all of the mass of an atom found

The nucleus.

The nucleus contains almost all of the mass as it also contains protons & neutrons of the atom.

Hope this helps!

I would have to say the NUCLEUS because its the only one that makes sense.

How do I divide 389 by 52

Which description best characterizes the motion of particles in a solid?

A scuba diver is 30 feet below the surface of the water 10 seconds after he entered the water and 100feet below the surface after 45seconds. What is the scuba divers average rate of change?

What is the difference between mass and weight??

What other continent is south america connected to?

Can someone do a essay about HOW TO MANAGE please!!

What is the domain of the function $f(x)=-4\log_2(x+3)-6$ Enter your answer in the box.

All real numbers greater than

Why is primase required for DNA replication?

I need solutions for both

Both Cesar Chavez and Martin Luther King, Jr. used _____ protests to support their causes. A. violent B. nonviolent C. treasonous D. ineffective

c. When the center of Earth is 2×10^8 kilometers from the center of Mars, the force of gravity between the two planets is about 64.32×10^{22} newtons. The mass of Earth is about 6×10^{24} kilograms, and the mass of Mars is about 6.4×10^{23} kilograms. Using these values, estimate the gravitational constant.

If $m^2 + n^2 = 18$ and $mn=7$, what is $(m-n)^2$

Area of Circles - Item 20636 Qy

A circle has an area of 80 square centimeters. Which answer is closest to the measure of its radius?

Why did the Mormon faith come under attack while they were settled in nauvoo, Illinois? Why did the Mormons eventually leave?

What other words could be used to describe human beings?

thanks

What is 600000 minus 145782

An accident at an oil drilling platform is causing a circular oil slick. The slick is 0.07 foot thick, and when the radius of the slick is 110 feet, the radius is increasing at the rate of 0.9 foot per minute. At what rate (in cubic feet per minute) is oil flowing from the site of the accident? (Round your answer to two decimal places.)

How are primary and secondary sources different
