

The ocellated frogfish is known for a specially adapted dorsal fin located just above the fish's mouth. The fin is stalk-like with a fleshy tip, and the frogfish can wiggle it to mimic the appearance and movement of small sea creatures. This behavior attracts other species of fish that prey on the creatures being mimicked. Which term best classifies the interaction between the frogfish and the other species of fish it attracts? A.

A.
predation

B.

parasitism

C.

competition

D.

symbiosis

Answer: A. predation

Predation is kind of interaction among species, in which one organism kills the other organisms in order to obtain it's food. The organism which feed upon other organisms is called as a predator and the the organism being consumed is called as prey.

The dorsal fin is a kind of camouflage to disguise prey organisms, so that the frogfish can obtain it's food by attracting and killing small sea creatures. Therefore, it is a predation type of interaction between the frogfish and other species of fish it attracts.

I would say predation

Please help i think i solved it correctly but i just want to double check $15x + 21 < 12$

What happens to light inside of a prism

The spring is released and a 0.10-kilogram plastic sphere is fired from the launcher. Calculate the maximum speed with which the plastic sphere will be launched. [Neglect friction.] [Show all work, including the equation and substitution with units.]

Solve the proportion $r/72 = 3/9$?

Social Security offers all but which of the following benefits? a. food stamps

b. home loans

c. unemployment insurance

d. veteran benefits

Please select the best answer from the choices provided

What are the initial steps of the research process?

Hemophilia is a condition in which blood does not clot properly. What is the main effect of this condition?

Which best defines partial pressure in a mixture of gases? pressure that is exerted by all the gases of a mixture on the container

pressure that is exerted by one gas as if it occupied a container by itself

half of the pressure that is exerted by the gases of a mixture on the container

sum of the individual pressures that are exerted by two or more gases

Histogram or Bar Chart? Select which graphical display is most appropriate to describe the distribution for each of the variables listed below. Hint: First determine if the variable of interest is categorical or quantitative (a) Trash pick-up day for each household in Ames, IA. (b) Patient wait-time at ISU Thiel Student Health Center for each patient seen on a given day (c) Number of trips taken during a given school year by each ISU student. (d) Tax bracket of all Iowa residents.

How can you apply the 5As on smoking

To play on clay courts, you must wear tennis shoes for traction

A circle centered at the origin passes through the point (3, 5). What is the area of the circle to the nearest tenth of a square unit? 34.0 units²

106.8 units²

213.5 units²

None of the above

20 POINTS - If you were to give Nick Carraway from the "Great Gatsby" a superpower, what would you give him? I need help for an English essay, im stuck... can you give me a little explanation of why you would give him that superpower too please.

This story is told by the main character. The reader can't see anything beyond what the narrator sees and knows which type of point of view is being described a. third-person view omniscient. B. Second-person. C. first-person. D. third-person limited

Mettez au discours indirect. 1. Helene dit a sa mere: Je suis fatigued.
