

PLEASE HELP I REALLY NEED HELP IVE BEEN ASKING AND ASKING BUT NO ONE WANTS TO HELP, IF YOU HELP ILL DO ANYTHING :(PLEASE :(MACBETH. She should have died hereafter; There would have been a time for such a word. Tomorrow, and tomorrow, and tomorrow Creeps in this petty pace from day to day To the last syllable of recorded time; And all our yesterdays have lighted fools The way to dusty death. Out, out, brief candle! Life's but a walking shadow, a poor player That struts and frets his hour upon the stage And then is heard no more. It is a tale Told by an idiot, full of sound and fury, Signifying nothing.

Which line refers to the meaninglessness of life?

"All our yesterdays have lighted fools/ The way to dusty death."

"To-morrow, and to-morrow, and to-morrow,/ Creeps in this petty pace from day to day,"

"Out, out, brief candle!"

"full of sound and fury,/ Signifying nothing."

Answer:

"full of sound and fury,/ Signifying nothing."

Explanation:

This is the line that best expresses the idea of life being ultimately meaningless. In these lines, Macbeth tells us that life is full of sound and fury. This indicates how life feels complex and important when it is happening. Yet, he argues, it ultimately signifies nothing. He thinks that even though life appears to be full of experiences and events, in the end none of them actually mean anything.

The last one, "full of sound and fury,/ Signifying nothing" because it says that the personification of Life is full of anger, but it does not mean anything.

Why Do You Think This Story "The Scent Of Memory"?

Find the slope of the line passing through the points (6, 4) (3, 8) A. $\frac{4}{3}$

B. $-\frac{4}{3}$

C. $\frac{3}{4}$

D. $-\frac{3}{4}$

Write the equation of the line that is perpendicular to the given line and that passes through the given point $-x+5y=14$ (-5,-2)

How does a guitar string make a sound wave? A. Striking the string compresses the air around it to create a sound wave. B. The vibrating string alternately compresses and rarefies the air to make sound. C. The string strikes the wood of the guitar, which vibrates to make the sound. D. The string moves air through the hole in the guitar to create sound. **I am not sure :(thank you!!

An organ and tissue donor cannot have an open casket at his or her funeral.

True

False

Sam is making a histogram of the height in inches of all 250 students in his grade. The shortest person is 48 inches and the tallest is 60 inches. How wide should his x-axis intervals be? A) 2 B) 5 C) 8 D) 12

Determine whether the following possible responses should be classified as interval, nominal or ordinal data. ? Ordinal Nominal Interval 1. Heidi's favorite brand of tennis balls

? Ordinal Nominal Interval 2. Number of cars in a parking lot

? Ordinal Nominal Interval 3. Amount of time you spend per week on your homework

? Ordinal Nominal Interval 4. Whether you are a US citizen

What is the sum of 5ft 9in + 12ft 3in

Lila draws a 145 degree angle. then she divides it into three smaller angles. One of the smaller angles measures 65 degrees, then the other two are equal in measure. What is the measure of the other two.

How did the American federation of labor view strikes?

Since the Coffee Collective is a service organization, what it provides tends to be more of a performance than a product. Because of this, Martha must demonstrate to customers the benefits of visiting the Coffee Collective in order to overcome the _____ of services.

Ayako spent \$7.80 on equal weights of beads of white and red beads. The red beads cost twice as much per ounce as the white beads. How much did Ayako spend on each colour of beads?

For what kinds of needs do you think a firm would issue securities in the money market versus the capital market? A firm would issue securities in the money market versus the capital market? because:

What did Solomon ask for when God appeared in his dream? The Bible story (Lesson from Solomon's dream)
