In fall 2014, 36% of applicants with a Math SAT of 700 or more were admitted by a certain university, while 18% with a Math SAT of less than 700 were admitted. Further, 38% of all applicants had a Math SAT score of 700 or more. What percentage of admitted applicants had a Math SAT of 700 or more? (Round your answer to the nearest percentage point.)

Why did President Kennedy have trouble finding support for civil rights legislation? He was distracted by other important issues.

He had a reserved, uncharismatic personality.

He was a narrowly elected president facing powerful pro-segregation congressmen.

He saw civil rights as a legal issue, not a moral one, so his appeals were hard to understand.
