

What are the common factors for 54,24,18

Answer: 1,2,3,6

Step-by-step explanation:

The factors of 54,24 and 18 are 1,2,3,6

Answer:

Step-by-step explanation:

We find what number we multiply by another number to get 54, 24, 18

54: 1, 2, 3, 6, 9, 18, 27, 54

24: 1, 2, 3, 4, 6, 8, 12, 24

18: 1, 2, 3, 6, 9, 18

Now the numbers that repeat in these sets are the common factors

We got 1, 2, 3, and 6, which make these our common factors

The development of complex civilizations date back to 1300 ago with Olmec, Mayans, and the Inca. Likewise there were many highly developed civilizations in the Africa dating back to 1400 BCE. Discuss the possible causes of the rise and fall of such advanced civilizations / kingdoms.

HELP!!!!!!!!!!!!!! A 15-foot ladder rests against a wall. The base of the ladder is 8 feet from the wall.

How far is the top of the ladder from the ground?

Enter your answer in the box. Round to the nearest tenth.

A particular telephone number is used to receive both voice calls and fax messages. Suppose that 20% of the incoming calls involve fax messages, and consider a sample of 20 incoming calls. (Round your answers to three decimal places.) (a) What is the probability that at most 7 of the calls involve a fax message?

List 4 organelles involved in cell division

Read this passage from "Marian Anderson Sings": "Anderson's manager wrote to make arrangements. The date he wanted was already taken, he was told. He suggested other dates in April. He was told that those were taken, too. In fact, no dates were available at all." Why does the author of the story include this passage? A. to show that Anderson was not popular enough to be able to reserve Constitution Hall B. to show how difficult and competitive the music business can be

How many hearts does a whale and shark have?

Which of the following statements is true of managers' communication? a. Surveys show that most managers do not realize the need to improve communication effectiveness. b. Managers' communication is past-oriented, that is, it directs employees' attention to prior mistakes. c. Everything that a manager does and says

communicates something to the employees. d. Surveys show that most managers seek continuous feedback from employees and customers. Next
An organ pipe has two successive harmonics with frequencies 1372 and 1764 hz. (a) is this an open or a stopped pipe? explain. (b) what two harmonics are these? (c) what is the length of the pipe? _____

SOME ONES PLEASE HELP ASAP. Which body of the federal legislature has the most members elected by the public? A. The Supreme Court B. The Department of State C. The House of Representatives D. The Senate

You are discussing wally's case with the other nurses when one of them says it does not make any sense. "it's called adrenal hypertrophy," she says. "that means the adrenal is bigger than normal! so why are they giving him cortisol? his adrenal should be making more cortisol if it's bigger than normal."

0.7 is 10 times as much as

Which electron carrier is generated in the reaction catalyzed by malic enzyme? a. NADPH

- b. NAD
- c. FADH₂
- d. NADP⁺
